PROBE OF COUNTY

Jury Announces That No. Witnesses Have Come Forward - Fulton Officials Called Before Body

Offer of immunity from prosecution in return for concrete information in connection with the Fulton county investigation has not resulted in the appearance of a single witness, officials of the grand jury announced Friday as the jury, after a lengthy session with members of the county commission, prepared to resume the probe at 10 o'clock Monday morning.

At the same time, grand jury officials declared that the investigation has "no political significance in so far s this body is concerned, but is an effort on the part of the grand jurors to do their duty and determine the truth or untruth of certain rumors which have come to their attention."

The grand jury has received numer ous unsigned letters within recendary containing rumors and charges, but the letters have not been supported the letters have not been supported the letters have not been supported by the supported by the support of witness. by personal appearances of witness to testify to facts, it was said. Gran jury officials were asked if anythin "tangible" has been uncovered by the investigation, and replied: "Lack of the return of indictments so far seem to indicate that certainly things ar

to indicate that certainly things are neutral."

The officials repeated the offer o. immunity, and said that the ears of the grand jurors are still open to anyone who will come forward with "concrete information."

Commissioners William L. Gilbert, chairman: Walter C. Hendrix, Paul S. Etheridge, Clerk Henry M. Wood, and Sam E. Finley, paving contractor, were called before the jury Friday afternoon.

Reports current Friday afternoon Reports current Friday afternoon were that the grand jury was going into paving matters, particularly with reference to alleged letting of contracts for materials without competitive bidding. Members of the commission pointed out that the commission is not rejuired by law to call for bids, but that bids are called for in certain instances.

Members of the commission were questioned with regard to the paving of Kingsboro road, the grand jury's information seeming to be that the highway was paved before it was placed on the minutes of the commission as a public road. Questions propounded by the jury were also said to relate to general county matters.

The grand jury also was believed

The grand jury also was believed to be going into the matter of the selection of a certain material for paving certain roads in preference to other materials. Members of the commission said that selection of materials is entirely in the discretion of the

commission.

Issuance of the immunity offer by the grand jury was a course similar to that followed in the city hall investigation, when numerous volunteer witnesses appeared and offered eir testimony under an immunity from prosecution for alleged participation in the transactions on which indictments were returned against city offi-

Plunging into late October, when the national gridiron season reaches its first high peak of general interest, the Southern conference race offers today four games which may well make or break the chances of the participants in the campaign for the mythical championship.

One of these battles will take place on Grant field, when the Green Wave of Tulane—bolder of the title in 1929—sweeps against the defenses of Georgia Tech, victors in the 1928 season, when the Jackets topped off their sectional triumph by winning national laurels in the Rose Bowl game.

Due to their impressive showing against the powerful Northwestern team and a subsequent victory over the strong Texas Aggies, the Greenies enter the battle with Tech today favored to win.

Bulgaria's King To Wed Italian Princess
At Historic Church of St. Francis Today

An atmosphere of the past will surround the nuptials today of Princess Giovanna, of Italy, and King Boris, of Bulgaria, in the historic Church of St. Francis at Assisi. Former King Ferdinand, who was exiled from his country, will see his son wed the beautiful Italian princess. After the ceremony King Victor Emmanuel, of Italy, will give a reception in the Communal palace.

Brown Bread and Baked Beans

BY JESSIE MARIE DEBOTH

Almost everybody likes the rich flavor and pleasant consistency of good steamed brown bread, yet few women bether to make it. The bake shops which supply it, usually present a dry, durable product quite different from the moist loaf that is deservedly popular. It is easy enough to make, but the long steaming which is necessary seems an obstacle to many. It really is simple, if one has a deep enough kettle to allow the water to boil steadily without cooking away. Even if it has to be replenished a couple of times, it means only a few moments' attention, which is well reents' attention, which is well re-

Left-over bread may be sliced, and readly by the tempting brown loaves. Three or four may be cooked as easily ar one, and may be reheated with perfeel satisfaction or sliced cold for sandwich use. This bread is especially good with oysters, fish or ham, as well as the traditional beans.

One of the stumbling blocks in the way of an agreeable bread is the mollasses; a light syrup has neither the color nor flavor desired, and too dark a product gives a strong, bitter flavor. A medium variety gives the best results and is worth the extra price generally demanded.

Oatmeal brown bread is a bit unusual, and is splendid food for both young and old. For this we shift a cup of graham flour, three-fourths of a cup of corn meal, one and one-half teaspoons each of salt and soda (or you may dissolve the soda in part of the milk, if preferred). To this dry mixture add one and one-half cups of flour are sifted with half a cup of sugar, then blended with half a cup of

and the batter may fall, producing what is often aptly called a "sad" loaf.

When the bread is done, it will slip from the mold, with perhaps a little coaxing by a slender spatula. Some like to place the uncovered pans in a moderate oven for 10 or 15 minutes to dry out a little. If not to be served at once, the extra loaf may be cooled, wrapped in waxed paper and put away for future use. To reheat just place in mold again and set in boiling water (the tea kettle spons of baking powder and half a ceaspoond of salt. Mix well, add the soft chocolate and steam one and one half hours in a buttered mold. The half hours in a buttered mold. The melon mold is especially good for this pudding. ment of the first month's rent, \$3,333.
Clearing operations were completed Thursday afternoon.

Notification is expected to be the signal for a court battle over the 65-year lease contract for which the borough was to receive \$5,550,000, since hotel executives through their attorneys already have demanded return of a \$50,000 certified check guaranteeing erection of an improvement on the site which would cost not less than \$2,500,000. In petitioning council for return of the check several months ago, officials declared the lease is invalid. Council declined to act in the matter.

College Park Mayor **Answers Fact-Finders**

E. D. Barrett, mayor of College Park, Friday addressed a communica-tion to Atlanta newspapers explain-ing "the laying of sidewalks in a College Park subdivision after a county commissioner had been deeded a part of the land." News reports of the matter were

part of the land."

News reports of the matter were carried as an allegation of the Fact-Finding Commission, which investigated affairs of Fulton county. Mr. Barrett's statement, he said, was made in fairness to "the honorable board of county commissioners."

Text of Mr. Barrett's statement follows:

lows: "Dear sir: On Monday last there appeared an allegation of the Fact Finding Commission, as follows—'that sidewalk paving had been laid in a sidewalk paving had been laid in a College Park subdivision after a county commissioner had been deeded part of the land for a minor cash payment and other considerations—inference being that county laid said sidewalk free of charge account of porperty belonging to a commissioner.

"I think it nothing but fair to our honorable board of county commissioners to correct this statement of the supposed Commission of Fact Finders.

"The facts are these: Fulton county has laid sidewalks in College Park only in front of its school property and some of our churches. The sidewalks in front of property owned by a commissioner were laid by Mr. M. Brown, who had contracts from city to lay all sidewalks in this particular area. recent battles with Flogida and Tech, and seem to have reached the stage where they are strong enough to be seriously reckoned with by any team in the conference.

With their "suicide" schedule in mind—a schedule which calls for games with Florida and New York University these next two weeks—the Bulldogs are expected to lean heavily upon their strong corps of reserves today. Roberts, Downes, Chandler, Smith, Maffett and the other heroes of the New Haven invasion will be used only as found necessary. Auburn, on the contrary, will call upon the best it can put into the field. Lindley Hatfield, backfield star, has no chance to play, it is reported, and he is certain to be sorely missed.

Crucial Game.

Two of the three teams regarded by experts as the strongest in the conference on their showing to date—Alabama and Vanderbilt—are to meet today at Birmingham in a game crucial for each. Neither eleven has had difficulty in winning all its contests to date and each has one especially fine achieve-

dores journeyed to the middle west earlier in the season and inflicted a crushing defeat upon the strong Minnesota team, while only a week ago at Tuscaloosa the Crimson Tide put an end in decisive fashion to Tennessee's four-year victory march. Wade's men won that game under wraps. They have tremendous manpower, but what other resources they have today alone can show. Vanderbilt will be outweighed, but it has a strong and versatile offense in which passing plays a big part. Unusual interest, also, attaches to the clash at Knoxville between Tennessee—so lately fallen from their high estate—and the North Carolina Tarheels. The boys from Chapel Hill were beaten only by Georgia last season and their sole defeat this fall has also come at the hands of the Athenians. Carolina has a brilliant array of ball-carriers, but is somewhat weak on defense. The Volunteers, with five of their 1929 stars—including the great McEver—out from injuries, must again rely upon the superlative passing, punting and generalship of the one and only Bobby Dodd, combined with the clusive running of Buddy Hackman to pull them through to victory. It wasn't quite enough against Alabama, but then this is another week and a different foe. It should be a hard-fought affair from the start. Radio and Ice Box As Year-Around Unofficial Gifts

jury in Judge John D. Humphries' division of Fulton superior court found Eden guilty of hurgiarizing F. W. Woolworth Company's store on Whitehall street, and fixed the penalty, at from 10 to 20 years.

This was the second jolt given Eden by a jury this month. Recently he was convicted of possessing aitro-glycerine and other accessories, with intent to crack a "box" in the Universal Credit Company office, 101 Marietta, and given three to five years. Under sentence as passed Friday by Judge Humphries, the 10 to 20 year term follows the three to five year sentence.

Eden was arrested in alleged possession of the nitro-glycerine on the tip given police by a confederate, it was said. Two efforts to blow the Woolworth safe failed when the "soup" did not jar the safe open, it was said. James Badlamenti and S. Godsey were indicted with Eden on the hurgiary charges, but have not

Some folks have found themselves between the "devil and the deep blue sea." John Crnkovic today found himself between 77 pints of whisky and his wife, so he told prohibition agents.

A federal judge ordered the liquor returned to John because a raid in which it was seized was held illegal. Government operatives took the whisky back but Crnkovic declined to accept it, explaining his wife had decided to leave if the liquor was brought into the house.

The agents will ask to have the whisky destroyed.

HOSPITAL GROUP HITS DRY RULES, ADJOURNS

New Orleans Conference Comes to an End With Morning Session.

NEW ORLEANS, La., Oct. 24.-(P)—Members of the American Hospital Association adjourned their annual meeting today following a morning session in which officers elected were installed.

The election of President-elect Paul H. Fesler, of the University of Minnesota hospitals, Minneapolis, late yesterday was preceded by adoption of a resolution asking of the government a "more liberal and wise interpretation" of the prohibition law regarding use of whisky in hospitals.

of whisky in hospitals.

Mr. Fesler was elected by a margin of 20 votes over the opposing candidate, Robert Neff, of Iowa city. Iowa. The Rev. M. F. Griffin, of Youngstown, Ohio, was elected trustee.

Dr. John A. Hornsby, of Charlottesville, Va., whose resolution on the prohibition law was unanimously carried, said that since the department of justice had taken charge of enforcement of prohibition a stricter interpretation had been given the term "for immediate use."

He said doctors now are permitted

He said doctors now are permitted to prescribe only one dose at a time and the present interpretation forbids any whisky being carried in ambulances even in emergency cases. "I don't want whisky." he said, "but I do want whisky for my sick people."

Upon the suggestion of John Olson, of Prince Boy, N. Y., the board of trustees will report at the next meeting the advisability of the association presenting orders of merit to persons conspicuous in the hospital field."

Other officers elected were: First vice president, G. W. Olson, Los Angeles; second vice president, Miss Muriel McKee, Brantford, Ont.; third vice president, Dr. Lucius R. Wilson, Galveston, Texas; treasurer, Ass S. Bacon, Chicago. Nathaniel W. Faxon, Rochester, N. Y., was named trustee.

warning to the United States that it will be caught unprepared in event of another war is sounded by General John J. Pershing in an interview published in the Country Home.

"People say we should disarm," the leader of the American armies in the World War is quoted as saying. "America already is disarmed. Good men and good women tell us that we should throw away our armaments. We have very little to throw away."

Declaring no one hates war more than he does, he says:

"I pray fervently that there will be no more war. With all my soul I hate it. I have seen it in all its horrors. The great war was called a war to end war. Yet, in these dozen years, think how many disastrous wars have been fought and how many others seem to be in the process of making.

"We know that we will not provoke war. But what is there in hislory which authorizes us to conclude that someone else will not provoke one some of these days? It is not a question of whether or not we believe in war. It is a question whether we shall defend this wonderful country of ours if some other nation, which does believe in war, should attack us."

New Income Tax Test Is Before High Court

Test on the enforcement provis-ions of the Boykin income tax law was before the supreme court Friday in a suit brought by R. C. Norman, state tax commissioner, against W. C. Bradley and A. D.

against W. C. Bradley and A. D. Turner, of Columbus, and Thomas K. Glenn, of Atlanta.

The commissioner contends that the three men made a profit of approximately half a million dollars on the sale of Coca-Cola stock and that they are liable to the state for a tax on this income.

The defendants, arguing the case before the court, insisted that the income tax law did not become effective until the last quarter of 1929 and was not retroactive. They contend that there was no increase in the value of the stock between the time the income tax law became effective and the date of the sale of the stock.

GEORGE JOINS ATTACK ON PALESTINE POLICY

Liberal Leader Agrees With Conservatives on Mac-Donald Stand.

LONDON, Oct. 24.—(P)—The Mac-Donald government tonight surveyed a scene in which all opposition leaders stood united against its proposals of British policy in Palestine.

David Liloyd George, one-time premier, declared in an address in Wales that the British statement of policy in Palestine looked "far too much like a breach of national faith." His pronouncement completed the square of antagonism against the proposals.

Stanley Baldwin, conservative leader, with his lieutenants, Austen Chamberlain and Leopold Amery, previously had voiced critical protests against the statement and no leader of British Jewry had spoken a word for it.

Lord Melchett, a former cabinet minister and one of the strongest industrialists in the empire, had followed Dr. Chaim Weizmann's lead and resigned his post in the Jewish agency as a protest. Altogether, political observers said, it was not impossible that a political crisis might arise out of the situation.

the 132 students at Harvard University to receive scholarships in the six graduate schools of that institution, it was learned Friday. The Atlanta student, whose father is a civil engineer in the city division of mapping, was given a \$500 scholarship in the Haward Law school.

The award was the second scholarship won by young Kops, his father said Friday. Last year he won a scholarship in Harvard Law school for the regular course. He entered Harvard University in 1925, following his graduation from Savannah High school, without entrance examination because of his high scholastic record.

WATCHES STOLEN AT SCHNEER STORE

Twelve watches valued at \$500 were stolen from the window of the Schneer jewelry store, 110 Whitehall street, early Friday morning by a thief who smashed the glass in the store front and escaped with the loot, according to police reports.

The robbery was discovered shortly before 6 o'clock by policemen patrolling the beat. A number of watches of cheaper grades were left by the thief.

Other robberies reported Friday included a burglary of the home of Dr. E. F. Hall, 1016 Virginia avenue, who reported a loss of \$11, and the B. E. Shainker store at 144 Decatur street, from which 50 spocket knives were reported stolen.

SAWYER'S SAUSAGE

IN ATLANTA AGAIN

Enoch Sawyer, famous all-pork sausage manufacturer, living near Tif-ton, Ga., and making daily shipments of his products to Atlanta, has opened as usual, his winter headquarters here 900 Peachtree street, near Tenth— e same location he occupied last

year.

Mr. Sawyer has established a national reputation on his little allpork sausage which he is shipping to all parts of the country.

"Beginning my business modestly several years ago, I killed more than 500 yours pigs list year at my farm.

several years ago, I killed more than 500 young pigs last year at my farm near Tifton. I will increase this number to at least 1,000 this year, a large part of the product of which I will hip to Atlanta. My Atlanta forwardings are sent fresh each night, of that day's manufacture, and are on sale at my place, 999 Peachtree street, early the next morning.

SALVATION ARMY LOSES TRUCK, THEN LOCATES IT

When the Salvation Army sends out its rummage truck to collect cast-off clothing and back-date magazines it usually is glad to get a good load of second-hand stuff to sell for the upkeep of its local industrial home. Friday, however, officials of the home said they would be satisfied just to get the truck back.

Ensign Hugo Bloomberg reported to police that he had sent the truck out Wednesday merning in care of a new inmate of the home. He hadn't been an inmate long, but the Salvation Army has its own honor system and takes a lot of chances that turn out all right. Wednesday night, however, the truck didn't show up. Nor Thursday morning. But a bill came Thursday merning. But a bill came Thursday afternoon, postmarked Hampton, Ga., certifying repairs to a Salvation Army truck. It appeared that the truck had been down and out-down in Georgia and out of commission.

The authorities assumed that he fell overboard from a ship about September 22. Officials made arrangements to have the body cremated and the ashes forwarded to the United States.

Army, Navy Leaders To View Game Today

When the referee's whistle blasts the Tulane and Georgia Tech football teams off to battle teday at Grant field two men of distinction will be guests in the box of President M. L. Brittain, of Tech—Admiral Hugh N. Rodman, of the navy, and Major General Frank R. McCoy, of the army.

The admiral and the general Friday accepted Dr. Brittain's invitation to witness the game from his box, but neither would reveal his favorite team, if any.

The Yellow Jacket band as a special compliment to Admiral Rodman, will play "Anchors Aweigh," the navys "theme" song. General McCoy won't be overlooked, however, for the "Stars and Stripes Forever," an army favorite, also is on the band's program.

choice of president would be thrown into the house and that would force a probable combination of the states carried by both the major parties to elect a president who would favor the states right plan, since it is gaining strong support in both parties.

The coming event which casts its shadow before is that before long the present policy, lending itself to almost universal liquor lawlessness, to increasing crime, to an enormous diversion of revenues from government to bootleggers, rum-runners and racketeers, with other major evils, will be brought to the bar of a new public judgment. Should that come in 1932 all the better for the character, morals and law and orpublic when the popular General Boulanger was urged to march on the Elysee by the royalists. The pretender stood on the Belgian frontier awaiting the call. But Boulanger did not march. His thoughts were with a certain lady and the plot failed. The Dreyfus Affaire really was nothing else but a huge camouflage put up by the royalists, aided by all the obscurantist elements in the country, to laun h a coup d'etat. Health Talks BY DR. WILLIAM BRADY.

AMERICAN VERSUS ENGLISH WHOOPING COUGH.

In recent talks I have quoted what I consider sage and sensible ideas from an address by Dr. Robert Hutchson, delivered at the recent meeting of the British Medical Association in Winnipeg. Today I quote one more idea from Dr. Hutchison's address. which, as I think, is not so sage, Re-

This is having the bad effect of preventing their having usual infectious diseases of child-nood at the proper time. The best time to have measles, whooping cough and the other childish infections is between the ages of 5 and 10. At that period they are less dangerous, but if they are postponed until late childhood or adolescence they are both more perilous and more inconvenient. Yet this is what is happening now, especially in the upper classes. It would be all right to protect children from infection if there was any chance of their permanently escaping it, but there is no such chance and I there is no such chance and I would therefore encourage the taking of these diseases at the

proper time."

Coming from a recognized representative of English medical thought and in such auspices, this is indeed startling. Should we return to the belief and practice of the nineteenth century? Can it be that intelligent people in England deliberately expose their children to such diseases as whooping cough and measles so that the children will "have it and get it over with?" In America we have come to associate that practice with ignorance and irresponsibility.

In America a steadily increasing proportion of the population is permanently escaping whooping cough. In this country a child has a very good chance nowadays of growing up in good health and living to a hearty old age without ever catching whoop-ing cough. Some persons permanent-ly escape some of the other infections which this scion of English medicine regards as "proper" for childhood.
The official records show that, in
England, whooping cough causes twice
as many deaths as diphtheria; while in America it causes only half as many deaths as diphtheria. To my mind this suggests that it pays to re-spect whooping cough, and our Amer-ican attempt to protect children from infection with it at any age is the better policy to pursue.

better policy to pursue.

In fairness to Dr. Hutchinson we should explain that the idea of having a disease for the sake of acquiring a disease for the sake of acquiring immunity against it is not unsound, provided you are reasonably
sure to have it in a mild form, so that
your illness will neither main you nor
leave you handicapped in any way. We
bring just that boon to every wellcared-for child in America when we
immunity the traphold immunize the typhoid fever. But there is no natural means of acquiring such immunity that is quite safe enough to risk. Certainly no intelligent parent in America would knowingly infect his own child with whooping cough. And in view of the comfact that the

The Injustice of Exemptions. Again, it is argued that there ould be a liberal exemption of low-

That simply means establishing injustice in the system from its birth, and that the greater part of those gainfully employed are to be allowed gainfully employed are to be allowed to escape paying rightful taxes to the state that grants them property, privileres and personal protection.

The great fact in the case is that the general assembly grossly violates the constitution of the state whenever and every time it grants an exemption from taxation.

Letters From a Bald-Headed Dad to a Flapper Daughter

BY ROBERT QUILLEN

ROBERT QUILLEN.

Many times in your life you will wonder what is right and what is wrong. Perhaps you will know, deep in your heart, that the right way is the hard way; but the temptation to do wrong will be so great and will offer so many plausible arguments and ex-cuses that your mind will be tricked and con-

fused and you will need some one to guide

This, then is to suggest a way out of your difficulties.

You have seen the rural part of America described in print as the "Bible belt," and you know that country people as a class take their religion much more seriously than city people. Do you think that state of affairs something w? Well, it isn't.

Keep pegging away at the history you are so fond of and you will discover that all re-ligions come out of the country.

The saviors and teachers spend their youth among people who plow tend herds, and finish their training in the desert. And in all lands and all ages the people who preserve the faith of their fathers and remain conscious of God's presence are country people. It isn't because country people are morally or spiritually superior

city people. It is wholly a result of environment.

Those who live in the shadow of towering buildings and are dominated by the products of man's genius and ingenuity are unable to forget the greatness of man, while those who live close to the earth and see no majesty except that of mountains and stars are unable to forget the greatness of God.

That is the whole explanation. And there you have the solution of problems that vex and trouble

Your mind may be confused and the thing that is wrong may seem to be right while you remain in town, but an hour alone under the stars or an hour spent on a sun-drenched hillside in the country will clear your mind as a summer shower clears the dust-laden air.
You needn't try to think or invite inspiration. Just remain quiet

for an hour while earth and sky readjust your sense of values and teach you how small man is and how great God is. You will make mistakes all your life, dear, but you won't make any

big ones if your decisions are made out in the open where the shepherds saw the guiding star as they watched their flocks by night.

FASTER TIME TO

INSTALLMENT XXVIII.

"It's rather odd. It was put through from the north lodge of Old Hall. Now, that lodge is empty, the lodge keepers have been pensioned off and the new lodge keepers aren't in yet. The place was empty and convenient—a window at the back was open. No finger prints on the instrument itself—it had been wiped clean. That's suggestive."

"How do you mean?"

"I mean that it shows that call was put through deliberately to get you out of the way. Therefore the murder was carefully planned in advance. If it had been just a harmless practical joke, the finger prints wouldn't have been wiped off so carefully."

"No, I see that."

"It also shows that the murderer "It also shows that the murderer went to the morning of the crime or it might not. 'I couldn't say, I'm sure.' They're all alike!

"Just as a matter of form I went around and saw Dr. Stone," he went on. "I must say he was pleasant as could be about it. He and Miss Cram went up to that mound—or barrow—helf

have been wiped off so carefully."

"No, I see that."

"It also shows that the murderer was well acquainted with Old Hall and its surroundings. It wasn't Mrs. Protheroe who put that call through. I've accounted for every moment of her time that afternoon. There are half a dozen servants who can swear that she was at home up till 5:30 o'clock. Then the car came round and drove Colonel Protheroe and her to the village. The colonel went to see Quinton, the vet, about one of the horses. Mrs. Protheroe did some ordering at the grocers and at the fish shop and from there came straight down the back lane where Miss Marple saw her. All the shops agree she carried no handbag with her. The old lady was right."

"She usually is," I said mildly.

"And Miss Protheroe was over at Much Benham at 5:30. That disposes of her. The maids seem all right—a bit hysterical and upset, but what can you expect? Of course, I've get my eye on the butler—what with giving notice and all. But I don't think he knows anything about it."

"Your inquiries seem to have had rather a negative result, inspector."

"You remember the fuss that Mrs. Price Ridley who lives next door to you was kicking up yesterday morning? About being rung up on the telephone?"

"Yes?" I said.

"Well, we traced the call just to calm her—and where on this earth do you think it was put through from?"

"A call office?" I hazarded.

"No, Mr. Clement. That call was put through from?"

"A call office?" I hazarded.

"No, Mr. Clement. That call was put through from Lawrence Redding's cottage."

"What?" I exclaimed, surprised.

"Yes. A bit odd, isn't it? Mr. Redding had nothing to do with it. At that time, 6:35, he was on his way to the Blue Boar with Dr. Stone in full view of the village. But there it is. Suggestive, eh? Some one walked into that empty cottage and used the telephone calls in one day. Makes you think there's some connection between them. I'll eat my hat if they weren't both puthrough by the same person."

"But with what object?"

"But with what object?"

"Well, the weren't both puthrough from the second one, but there must be a point somewhere. And you see the significance? Mr. Redding's house used to telephone from. Mr. Redding."

"It would be more to the point to have put through be more to the point to have put through the first call from his house." I objected.

"Al. But I've been thinking that out. What did Mr. Redding do most afternoons? He went up to Old Hall and painted Miss Protheroe. And from his cottage he'd go on his motor bicycle, passing through the morth from the condon one but thereall being put through from there. TODAY'S SOCIAL GAYETIES HONOR PROMINENT VISITORS

Tech-Tulane Football Game Mr. and Mrs. Stowe Holds Attention of Society To Honor Visitor At Bridge Party

Innumerable social gayeties are scheduled for today, these informal affairs to precede or to follow the Georgia Tech-Tulane football game which has attracted a number of visitors from New Orleans and other southern cities. These out-of-town guests will be central figures in many parties today, sharing honors with the lovely sponsors who will occupy a prominent place on the sidelines of the two football teams when they meet this afternoon on Grant field. Sponsoring the Tech team will be Misses Louisa Howard, of Wilmington, N. C., who until recently made her home in this city; Miss Geraldine Wynn, of Newnan, and Miss W. J. Toland, Mr. and Mrs. Constance Advantages and other horizontal and status and statu Constance Adams, attractive young sub-deb daughter of Mrs. Albert Adams, of Atlanta. Among the dinner parties to be given this evening at the Piedmont Driving Club dinner-dance is that at which Mr. and Mrs. William K. Jenkins will be hosts, their guests to include a group of New Orleans visitors, who arrive this morning for the game. Another event in which visitors will be prominent figures is the tea that Mr. and Mrs.

in which visitors will be prominent figures is the tea that Mr. and Mrs. Frank C. Owens will entertain, the guests motoring to Craigelachie, their home on Pace's Ferry road, immediately after the game.

Distinguished Guest.

A distinguished guest in the city today is Miss Moina Michael, of Athens, who was awarded recently the distinguished service medal by the American Legion Auxiliary in Boston, Mass., the award being made in recognition of Miss Michael having originated the idea of wearing the Flanders field poppy in memory of the World War dead. This prominent Georgian will be tendered a tea this afternoon by Miss Ruth Blair at the home of her sister, Mrs. Steve Garrett, on Ponce de Leon avenue, in Druid Hills. Receiving with Miss Michael, Miss Blair and Mrs. Garrett will be Mrs. William M. Nichols, sister of Miss Michael and Mrs. Clifford Walker. Other parties planned for today will honor debutantes, brides-elect and recent brides, the former for whom social affairs will be given including Miss Sarah DeSaussure, Miss Eugenia Candler, Miss Hannah Sterne, Miss Frances Barnwell and Miss Mary Phillips Orme.

At Quiet Ceremony

Miss Sallie Elizabeth Blackstone, and Edward Lewis Bethea were quietly united in marriage at 8 o'clock Wednesday evening at the home of Mr. and Mrs. William P. Edens on North Highland avenuc. Rev. J. F. Edens performed the ring ceremony in the presence of the immediate families and a few intimate friends before a background of palms and ferns interspersed with baskets of pink dahias.

The bride was lovely in a gown of golden brown flat crepe, fashioned simply, with trimmings of cream lace and small amber buttons. Her hat was an off-face model of golden brown soliel. A shoulder bouquet of tiny cream rosebuds and valley liles completed the becoming ensemble.

Mrs. John P. Brooks, cousin of the bride, was her matron of honor and wore a smart costume of green crepe with shoulder bouquet of pink rosebuds. William P. Edens, brother-in-law of the groom, acted as his best man.

BARGAIN BASEMENT

Have you tried the **HOT-TOAST TEST?**

FOOD manufacturers sometimes forget how wise the human sense of taste is.

They make a product that looks similar to the best product...only they make it cheaper. And then it tastes cheaper.

If your sense of taste is of average acuteness perhaps you have noticed those little odd disturbing flavors in the margarine you are now using. Or an oil after-taste.

We suggest that you try Nucoa ... and give it the Hot-Toast Test.

Notice the sweet, rich, clean flavor.

The taste of Nucoa is exactly what Nucoa is ... a sweet, rich, clean product. A delicacy. Nucoa maintains the high-

est margarine standard in America. Nucoa created this superior standard. And lives up to it.

Thousands of grocers sell only Nucoa exclusively, because their exclusive trade won't have anything else.

Nucoa is delivered to your grocer more frequently and sells faster than any other margarine. Therefore it is always fresh.

AND THE HOT-TOAST TEST TELLS YOU THAT!

Distributor: Tennessee Egg Company, 189 Spring St., S. W., Atlanta, Ga.

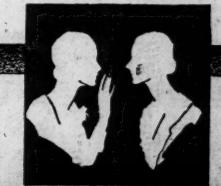

The Hot-Toast Test is Your Personal Margarine Test

Take a piece of hot toast and spread liberally with Nucoa. Notice how the good, wholesome elements of this delicacy begin to register on the taste buds . . . those wonderful little taste-centers at the base of the tongue. Notice the sweet and appetizing satisfaction . . . the clean body and "bloom" of flavor.

The Hot Toast Test will prove to you that Nucoa is UNLIKE any other margarine.

BIRMINGHAM, Ala., Oct. 24.—
Two floors of the Bankhead hotel sagged dangerously here tonight as both the Alabama and Vanderbilt football teams rumbled into town and took quarters in the hostelry.

It seems that Saturday is to be October 25 and that Vanderbilt's Commodores and Alabama's Crimson Tideare, to meet in a football game at 2 o'clock at Legion field, with something like 20,000 totally unreasonable people looking on.

thing like 20,000 totally unreasonable people looking on.

All the shifty and bright-eyed men who make their living by studying the odds on the football games—those wicked people who gamble—like Vauderbilt.

They don't like them very much. They are willing to make a friendly little wager at 7 to 6 that your Uncle Dan McGugin's Commodores can score more points than Cousin Wallace Wade's Crimson Tide.

While all the writing boys seem to agree that if Vanderbilt is to gain at all it must be with passes, this reporter prefers to believe otherwise.

The Commodores have a pretty fair forward pass game. Benny Parker can throw a football about like the home runs Nick Cullop used to hit in Spiller field. They are long ones that seem to work. And Amos (Mouse) Leonard can also toss short ones. Vanderbilt may score with passes

Georgia Holds Safe Edge on Eve of Game With Crippled Auburn Squad.

Staff Correspondent. COLUMBUS, Ga., Oct. 24 .- Enthusiasm among Tiger fans, Bulldog fans, and run-of-the-mine gridiron maniacs hit the ceiling here tonight.

Harry Mehre's Bulldogs, due to their impressive record this season, naturally rule heavy favorites with the wagering fraternity—especially in view of the crippled condition of some of Wynne's best players—but there are many who expect the battle to be closer by far than the dope would indicate.

Kansas U. Banned By Big Six Teams

COLUMBIA, Mo., Oct. 25.—(P)— (Saturday) — The University of Kansas virtually was eliminated from kansas virtually was eliminated from the Big Six conference in an announce-ment here early today that other mem-ber hool would schedule no more athletic contests with the Lawrence institution because of Kansas' viola-tion of "the rule of this conference relating to recruiting and subsida-tion of athletes."

After a long executive session, fac-alty representatives of the Big Six conference schools issued this statement shortly before I a. m. today.

"In view of practices at the University of Kansas in violation of the versity of Kansas in violation of the rule of this conference relating to re-cruiting and subsidizin; athletes, the other five members of this conference decline to schedule any athletic games

Baby Petrels Win

Over University Led by Jeff-Bolden, big fullback, the Oglethorpe freshmen swamped the University school Bluebirds, 55 to 0, Friday afternoon on Hermance field. Bolden romped across the goal line for a total of 19 points as the baby Petrels ran wild over the prep eleven.

Before plunging into the thankless experiment of guessing which ones of the conference troops will walk out on the battle today attend this first-hand report from the Clemson-South

Nash Higgins, who scouts for Florida, passed through town yesterday, en route to Columbus to study Georgia's method of subduing Auburn.

Nash had been watching Clemson do that to Carolina. He was awed by the power of Josh Cody's team and the prowess certain individuals. Nash says:

"Maxie Welch, the Clemson quarterback, is as strong a runner as there is in the south. He can throw a pass or take one and he is one tough boy to bring down in a broken field.

"Josh has a right tackle named Davis. When Josh walks beside Davis, Josh looks small. Davis must weigh 220 and is over six feet tall. He knows how to telescope a line,

"All in all, Clemson showed a whirlwind attack. They took that first Carolina touchdown right on the chin and kept smashing along until they had scored three touchdowns themselves.

'Clemson is certain to cause Tennessee and our club a lot of trouble. In fact, Clemson might come through undefeated and upset a lot of plans that other people have made."

WHY PLAY THE GAMES?

And now to go on with the unreliable information on great issues of the day on conference football fields:

GEORGIA TECH-TULANE—"Tulane is in great shape and will not be satisfied with less than five touchdowns," the advice from Bill Sprague, New Orleans, by postcard. don't see how we can hope to beat Tulane except by a miracle," is the consensus of opinion among Tech alumni about town. Okay. We will take Tech and spot Tulane one miracle.

VANDERBILT-ALABAMA-Alabama beat Tennessee and Vanderbilt beat Minnesota. Taking that as a point of departure and trustfully accepting Coach Wade's September report that he did not have a forward passer on his squad, we will string with Vanderbilt. If Alabama wins, blame Wade.

GEORGIA-AUBURN-Why worry those Auburn boys with a pep talk? They already have made names for themselves and homes for their coaches by nearly scuttling Florida and Tech on successive week-ends. They lost three or four good men by injuries and they have a long hunt ahead of them with several snowbirds on the fence. Auburn will play a fine hard game and get lots of experience, but if Georgia lucks out in the fourth quarter to win by several touchdowns it would be fair enough.

KENTUCKY-VIRGINIA—Kentucky players will let their beards grow until they beat Alabama. They had better enjoy the Virginia game. They probably will and celebrate the victory by twirling their moustaches.

TENNESSEE-NORTH CAROLINA - Tennessee urged Coach Collins to let his two Tarheels, suspended for breaking training, get into the game. Coach Collins refused, curtly. This proves something or other. But the fact remains that Bobby Dodd is back there calling them for Tennessee and will not drop another forward pass over the goal line. Tennessee it is, the author said weakly.

L. S. U.-SEWANEE—Probably this game should not have been mentioned. Louislana had a hard time losing two games or contests, not now under contract, been mentioned. Louisiana had a nard time losing two games with the University of Kansas for this academic year, and no games or contests beyond this year."

been mentioned. Louisiana had a nard time losing two games in a row by one and two points, respectively, while Sewance surprised one and all by beating Mississippi a week ago. The surprised one and all by beating Mississippi a week ago. The loser is hard to guess. I like Sewanee—I mean L. S. U.

> FLORIDA-FURMAN-Just a breeze for Florida unless the 'Gators have taken their victory over Chicago too seriously. In that case it might be a close call for the Gainesville boys.

Five-Year Victory March of Alabamans Halted by 39-0 Defeat at Spiller's Friday.

By Roy White.

Tech High put an end to Tuscaloosa High school's five-year victory march over southern prep football elevens with a 39 to 0 win from the Alabama institution Friday afternoon at Spiller field. The end of the Alabama institution Friday afternoon at Spiller field. The end of the famous Tuscaloosa streak which dates back for over five years was accomplished convincingly in every respect, and at no time during the game did the visitors bring the ball within the shadow of the Smithy goal.

Tech High scored three touchdowns by concentrated drives, two from intercepted passes followed by long runs, and one from a blocked punt. They had another called back after a substitute had run 65 yards upon intercepting a Tuscaloosa forward pass, and the Smithies were penalized 15 yards for clipping from behind.

Not only did Tech High take full advantage of every scoring opportunity, but they held the visitors to four first downs. Two of these came in the first few minutes of play, another late in the second period on a Tech High Graydor.

The Green Wave rolls against Georgia Tech's eleven this afternoon at 2 o'clock in a momentous game, the outcome of which will wash one or the other out of the conference championship race.

Tulane has played no conference games to date, but on the strength of their showing in early contests and the fact that Georgia Tech's eleven still remains the outstanding mystery of the season, experts accorded Tulane the doubtful honor of favorite.

College football with all its stage effects and its mob scenes is here at last. Previous games with South Carolina and Auburn scemed to lack some of the bustle and hubbut that attends this Tulane invasion.

The Yellow Jackets took a final workout at The Flats following the Tulane practice and seemed to be in excellent shape. Captain Earl Dunlap, injured in the Carnegie Tech game two weeks ago and of little use in the Auburn duel, is ready to step out at quarterback this afternoon. the second period on a Tech High penalty, and the last one in the third quarter on a 14-yard forward pass. The Atlantans rang up a total of 14 first downs and played the fourth quarter with an entire substitute team. Every boy in uniform was given a chance to play a few minutes during the game. TECH BACKFIELD.

This will necessitate Coach W. A. Alexander sending out a backfield composed of Captain Dunlap, quarterback, and three sophomores—Pat Barron and Jap Hart, halfbacks, and Tom Cain, fullback. The line is the same old line with a few surplus pounds pared off by a hard week of scrimmage and a burning desire to set the world right on their capabilities. Tom Jones and Ed Herron, ends: Frank Speer and Vance Maree, tackles; John Ezell and Jim Brooke, guards, and Ike Farmer, center, insist they have a good deal of unplayed football on hand and are ready to expend it all if necessary.

Coach Bernie Bierman indicated last night that he would be able to swing his strongest lineup into action. Nothing beyond Tech High showed one of its best games of the season, and every play seemed to work. They stuck to headsup football and recovered two Tusca-loosa fumbles, converting them into touchdowns. They broke up every visiting march before it was half GOOD BEGINNING.

Roper Picks Yale and Dartmouth in Major Eastern Games Today

TECH, GEORGIA

Princeton-Navy Go Rated Toss-Up; Colgate and N. Y. U. Favored.

> By W. W. (Bill) Roper, Princeton Football Coach.

PRINCETON, N. J., Oct. 24.—
There are several outstanding games in the east this Saturday. Army-Yale is about the biggest attraction and it should be a great game. I sfavor Yale by a narrow margin. The Army showed to good advantage against Harvard, but Yale has the shackfield edge. The play of the two lines should be about a standoff.

lines should be about a standoff.

On past performance Dartmouth has the call over Harvard. I believe Dartmouth is better supplied with substitutes, and from its showing against Columbia it looks more advanced. Harvard has a strong team. The captain, Ticknor, is a great leader, and the Harvard backfield is particularly strong. Harvard has had one freal test and Dartmouth hasn't had and. Although, as I say, the odds are slightly in favor of Dartmouth, I would be far from surprised at a Harvard victory.

The army from the east.

Holy Cross will give Brown a good game. Columbia will find itself ex-tended by Williams. NAVY PEEVED.

I was sorry to see Navy lose to Duke, for I am confident that as a cresult the Middies will play all the harder at Princeton. Both these teams have met stiff opposition from the start of the season, and should be the better for it. Princeton, in the second half of the Cornell game, showed come improvement, but it for from a best. Illinois will be a different team on November 8 than it was against Northwestern. Zuppke can hurry a team along at a rapid pace, if given any sort of material to work with.

It so happens that a coach needs material just as a halfback needs a line and interference. Minus either adjunct, the coach and the halfback suddenly slips in a hurry.

Lafayette is improving and should win from Washington and Jefferson. The fur will fly in the N. Y. U.-Fordham game, N. Y. U. has a powerful team with a versatile attack, and in my opinion is a trifle too strong for Fordham.

Syracuse and Penn should win from St. Lawrence and Lehigh. Pitt will undoubtedly give Notre Dame a great game, but Rockne's team looks too CLOSE GAME.

One of the best games in the east will be the Villanova-Temple contest. Temple has a versatile, well-drilled team, with a battling attack, and is jundefeated. Villanova has lost two games and is handicapped by injuries to two important players. On past performance Temple has the edge, but often the under-dog has a real advantage. It will be a real game, and while on form Temple should win by a close margin, I am far from certain of this result.

Gettysburg and Bucknell should have

Gettysburg and Bucknell should have thrilling game. I favor Gettysburg thrilling game. I favor Gettysburg y a close score. Colgate looks strong-r than Penn State, and Carnegie fech should defeat Western Reserve. favor Swarthmore over Johns Hop-ins.

In the south the leading game will be Alabama-Vanderbilt. Vanderbilt has probably a stronger team than ever before. Alabama looks very good, too, but I favor Vanderbilt by a mall margin.

Georgia and Georgia Tech should win their games. I believe Tennessee is too strong for North Carolina. Northwestern should defeat Centre.

The Chicago-Mississippi game will probably be a close one, and I favor Chicago.

Morehouse Plays Smith Team Today

One of the best games of the season of far is forecast for the colored footall fans of Atlanta today when the lorehouse football outfit meets the trong and versatile Johnson C. Smith ollege eleven on the Morehouse athelic field at 2 o'clock.

INTERSECTIONAL FOOTBALL.

NEW YORK, Oct. 24.—So far as the leading contests are concerned the midwest has the lump on the east to date by a lengthy span. the midwest has the jump on the east to date by a lengthy span, but the argument isn't over yet.

Illinois must still come east to meet the Army and Michigan Harvard are two pretty good entries for any section to claim.

In the same way, while Georgia got the jump on Yale, Georgia still has N. Y. U. in the road.

So far Pennsylvania, Colgate, Navy, Carnegie Tech are among eastern elevens beaten in the west. But the east has a strong delegation left, facing western opposition, in Pittsburgh, Dartmouth, Army and Harvard.

More will be known about Dartmouth's strength after today's Harvard meeting. If the Green is as strong as it looks to be and as well fortified in reserves, there will be no Stanford walkover later on. The east and the mid-west have two of their best teams to throw against far western strength as the season closes with Dartmouth facing Stanford and Notre Dame meeting U. S. C. It would be difficult to name two stronger ones, as the case looks today. It may look slightly different later on. Such things have happened in football before.

THE BIG SCYTHE.

NOTRE DAME has been the big scythe mowing down all opposition for the midwest score. So far the South Bend team has beaten S. M. U. from the southwest, the Navy and Carnegie Tech from the east. Now it is up against a strong Pittsburgh team. Later it faces Penn and

The schedule gives Notre Dame her chance to stand above the fold—if Notre Dame can win all her games. But Pittsburgh, Pennsylvania, Northwestern, Army and Southern California are still in the way, and most of these are strong—strong enough to beat almost any team on a slightly off afternoon.

N. D.'s big Job will be running against Northwestern, Army and Southern California on successive Saturdays, with all three games played away from home.

As the case stands now Illinois has only a slight chance against the Army, but the Harvard-Michigan battle should be one of the best. Illinois will be a different team on November 8 than it was against Northwestern. Zuppke can hurry a team along at a rapid

TODAY'S GAMES.

M ANY GAMES Saturday will have an interesting bearing on intersectional meetings yet to come. It will be interesting to see how far back Illinois can bound against a strong Michigan team, a team improving every Saturday.

It will be interesting to see how Dartmouth looks against a strong Harvard team in relation to her Stanford contest.

The same is true of the Army against Yale. If the Army can beat Yale, it should get by Illinois and South Dakota and reach Noire Dame

The south's two big victories have been Vanderbilt's defeat of Minnesota and Georgia's victory over Yale. These were first-class

achievements. Y. U. hangs one on Fordham, where the hanging on isn't so easy, and hasn't been for some time, this victory may make the Georgia-N. Y. U. contest one of the best of the year. As a matter of record the best of the intersectional contests are still ahead. November tests are more important than October tests, as a rule

It so happens this season that most of the intersectional competitors are among the strongest in their sections. This applies to Kansas in her meeting with Pennsylvania. Kansas has one of her great teams this season, one of the best in any football sector. And Penn by that date should be far enough along to

stand among the best in the east. The incident of Rolf Carlsten at Pennslyvania may be only the first of other movements along this line. The undergraduate ided in regard to football is changing rapidly, and the change will continue. It will come to the point where football must be made into more fun, or defections at many institutions will be greater. As it is, there are now any number of first-class football players in many leading universities who

JONES GRANTS STANFORD EDGE ON U.S.C. TODAY

Great Battle Likely Between Coast Rivals. Bears Face Test.

By Howard Jones,

Football Coach, U. S. C. LOS ANGELES, Cal., Oct. 24.—
(NANA)—Southern California's same with Stanford, because of the traditional rivalry involved, holds the spotlight on the Pacific coast this Saturday. Stanford is undefeated and very much in the running for the conference championship, which is one reason for rating Glenn Warner's team as favorite.

as favorite.

so favorite.

Southern California lost to Washington State, 7 to 6, and will be trying hard to wipe out this defeat by winning over Stanford. Whether the victory can be accomplished is romething that time alone will answer.

I saw Stanford's second-string line outplay Oregon State's regulars a week ago, and there seems to be no question but that Stanford is much better supplied with reserve material in this department than we are. There is an 'I football saying that games are won or lost in the line. Stanford, therefore, is entitled to an edge here lso.

I am not saying that my team is going int, the game with the idea of taking a beating. Far from it. My boys will be doing the best they can and if their best is not good enough to win they will at least have the satisfaction of having given Stanford a battle.

The game ought to be a close one,

an aggressive, heavy tackle.

My team has won for the past two
years, 10 to 0 and 7 to 0, after 'ving
in 1927, and a lot of guessers are picking us to win because of this. But
every coach knows that last 'car's
ocore or that of the year before means
very little when two strong football
teams get together, and I feel that
Stanford and Southern California fall
it, this class.

BEARS THREATENED.

California will probably have a hard time defeating the University of Washington and a husky victory is not improbable. However, the Golden Bears rested last week while Washington had a very strenuous game with Oregon. The fact that the game is being played in Seattle should aid Washington slightly, particularly if there happens to be a wet field. Washington State should have little

washington State should have little trouble with Montana, and I look for Bab. E. llingbery's team to run up wh. tever it desires in the way of a score. Virtually the same goes for the University of Oregon against Idaho, althoug. Idaho may prove a little t. ugher than Montana. Oregon State has a non-conference game with Pacific and should win without any undue exertion.

Georgetown faces Transylvania, East-The game ought to be a close one, and in every close game there are likely to be many breaks in the luck. I am not wishing Glenn Warner any bad luck, but I naturally hope that we get our share of whatever good breaks there are going to be.

Stanford has a strong line, backed by good reserves and a heavy, powerful backfield which includes fine players in Rothert and Moffatt particularly. Neill is a good end and Bogue an aggressive, heavy tackle.

My team has won for the past two

CHAMPAIGN, Ill., Oct. 24.—Everybody will be watching Wisconsi this Saturday, when the Badgers tackle their first hard Big Ten adversary

Ever since last week, when Wisconsin went berserk and scored 27 points against a Pennsylvania team that the east supposed to be a great one in the making, the Big Ten has been talking a lot about the Badgers. Penn had not met a tough opponent, and the east is prone to attach too much significance to big scores against minor elevens such as Swarthmore and Virginia. We'll be better able to compare the Badgers 'th the Big Ten leaders after the Purdue game. Purdue might have played a tie with Michigan if one try for point had been made; but the Wolverines, after being outplayed the first quarter, came back strong and deserved to win.

This is enough to show that Purdue will probably be tough for any Big Ten rival, and if Wiscousin runs amuck again and beats the Bollermakers as decisively as it did Penn, write it down that the Badgers are one of the best in the land.

Even if you discount Penn, Wiscousin is good, and I pick it to take Purdue. But I look for a real contest, and I give Purdue a good fighting chance.

it is not so good against line at DELAYED PLAYS.

The delayed plays seem to be used quite a lot here of late. And a tackle rushing a pass is apt to skid right by a young man spinning with the football. It is a tough game, and only boys with keen, bright nog-gins can stop the modern attacks.

Alabama boasts much scoring power. They can take that football and go up the field with it about 6 yards at a clip. Against Tennessee they rarely had to run more than twice to make first down.

They have that power and they have Flash Suther, who can give a great exhibition of open field running. Behind him they have Monk Campbell and Hillman Holley, who bad at it. LINE MAINSTAYS.

Wallace Wade thinks his ends and tackles, the latter being Freddie Sington and Foots Clements, are perhaps superior to Vanderbilt's, and they probably are, although Vanderbilt will dispute it as to ends and argue mildly about their tackles.

The Commodores have three men who can step in the open field. Amos Leonard, Johnny Askew and Tommy Henderson are all agile as can be in the broken field.

Jess Thomas, at fullback, Good For-tune at half and Benny Parker at quarterback, give the Commodores a more versatile set of backs. Even if they don't win they are more versatile SMART BENNY.

And in Parker they have a quarterback whose noggin is not at all thick. If his backs are in a running mood Benny Parker cap get all there is in them out of them.

Wallace Wade is also going to use a pass attack. He has one that hasn't been shown at all. Just how good it is remains to be seen. It will likely be held in reserve until the strategic most ment, if any, arrives.

In reserve until the strategic mo-ament, if any, arrives.
Reports from Tuscaloosa are that Wallace Wade has a brand-new set of formations. Like as not he has. Tennessee didn't force anything out of the bag of tricks at all. The Crimson Tide used end runs and bucks of the simplest form to win.

HINT OF RAIN.

There is a hint of rain for Saturday. Rain would hurt both teams. Alabama has an open attack they will need. The Commodores want to pass that football and be a bit open themselves.

that football and be a bit open themselves.

Alabama has an edge in the line. Vanderbilt has a superior nackfield. A tie game looks to be the only sensible prediction.

This reporter, simply because it seems the thing to do, selects Vanderbilt to win by a slim margin. That despite the fact that the Alabama team looks to have the best physical assets in the contest.

STRIB WILL TEST **FAMOUS THEORY** OF FITZSIMMONS

DeKuh To Be Second Biggest Man Ever Met by Georgian.

It was (Ruby Robert) Fitzsimmons who coined the expression "The bigger they are the harder they fall," just before he clambered into the ring with Ed Dunkhorst, the human freight car, and almost the biggest man on earth at that time. Bob forthwith substantiated the statement by thumping the Brobdingnagian heavyweight on the chim and watching him fall to the canvas with a terrific thud.

TO TRY AGAIN.

So on the afternoon of Armistice

So on the afternoon of Armistice Day here, Stribling will try again to test the truth of the Fitzsimmons' assertion when he wheels his heavy artillery into position for some long-distance shots at the towering chin of Arthur De Kuh at Spiller field.

De Kuh's chin hangs high in the air. From sole to top-knot he is 6 feet 4 and his tonnage is 218 pounds, which, incidentally, makes him the second biggest man the Georgia heavyweight contender ever faced in any-body's roped arena.

Stribling has dodged none of the big fellows, but it so happened that with the passing of Jess Willard the heavy-weight crop became of more normal size. Dempsey was only around 188 when he was champion; Tunney never moved the scales beyond 190; Jack Sharkey has remained consistently under 200; Johnny Risko and Tommy Loughran and Paul Berlenbach and some of W. L.'s other foremost rivals have been men of ordinary heavyweight stature. weight stature.

LAST OF GIANTS.

Of course Carnera remains to blot out the scenery with his 260-odd pounds; and Victorio Campolo, the new Wild Bull of the Pampas, is considerably in excess of 200, but most of them are of Stribling's own size.

Fact of the matter is that Stribling himself is no longer one of the lighter heavies, but has bulged out to und 192 pounds for fighting purposes. Recently, after a good rest from his endeavors against Phil Scott, he scaled 210 pounds in street attire.

he scaled 210 pounds in street attire. As soon as he went back into training, however, he pruned off half a dozen pounds quickly enough and looked more like W. L.

No more optimistic body of supporters ever come here with football teams than Tulane brings; they are outspoken in their support. And none can tell but what they will be proven right.

but what they will be proven right.

The Green Wave ran up scores on Southwestern Louisiana, the Texas Aggies and Birmingham-Southern. However, the real strength of the team was disclosed when they held Northwestern to a 14-0 victory. That game was played before Hank Bruder took smallpox, which means that Northwestern had its full strength in the game. The fact that Tulane trav-

Northwestern had its full strength in the game. The fact that Tulane traveled right on out to Texas and won from the Aggies, 19 to 9, indicates the reserve strength in the Green squad.

Tulane uses a wheeling shift out of an open huddle in setting off plays and employs quite a few spread formations of Minnesota origin. They will wear green helmets, green jersies and pants gored with green elastic in the game—quite a mifty outfit. The Yellow Jackets will use, the old mustard colored uniforms.

A victory for Tech will surprismany of its ardent supporters; yet a triumph by any margin would leave the Engineers right up in the conference race with three victories and no defeats. Certainly the issue is sharply drawn and a doggedly fought game may be expected.

TARTANS PRAISED BY COX. Ted Cox, gigantic line coach of Tu-ane and former Minnesota star, says he has seen two great football teams this year in Carnegie Tech and

this year in Carnegie. Tech an Northwestern.

"Carnegie Tech reached the top of its game for Tech," he said. "It was easy to see that Carnegie was absolutely at a peak. They got there just one week too soon, too. They must have slipped back a little at Notre Dame and used bad selection of plays at critical points. How any team could have handled that Carnegie line in such fashion as Notre Dame did is beyond me. The old Notre Dame jinx was put on the boys, that's all."

"And Northwestern?—boy, they were just nice to us to beat us 14 to 0. Why every man in the line is as big as I am. They set on offense farther apart than any team I ever saw. When they line up for a play at the side lines the other end is away out in the middle of the field. The linemen play standing up on defense and just push the others down with their hands. I certainly would defense and just push the others down with their hands. I certainly would like to see the team that could beat Northwestern this year. Their reserve strength, too, is so good that Bruder and all that bunch were taken out and still they had a great team."

The Tulane squad is quartered at the Georgian Terrace hotel and planned to attend a movie last night.

Athens High Bows To LaGrange, 18-12

LAGRANGE, Ga., Oct. 24.—La-Grange High scored three touchdowns in the first half here Friday after-noon to defeat Athens High, 18 to 12, in a bitterly-fought game played be-fore 1,500 fans.

fore 1,500 fans.

LaGrange opened with a furious attack at the start of the game, and scored in the first four minutes of play, Payne going over for the marker. A bad punt gave LaGrange the ball on Athens' 19-yard line a few minutes later. Whitten swept left end for 14 yards. Harris hit the line for 2 yards and then Peyne went over for another touchdown. A few minutes before the half ended Frosolono passed 15 yards to Smith over the goal line, who made a spectacular catch.

catch.

In the fourth period Athens staged a brilliant comeback and scored two touchdowns. Beginning a march from their 19-yard line, the Athens team went straight down the field without losing the ball. Hamilton scored from the 1-yard line. Recovering a fumble on LaGrange's 25-yard line, Athens scored again. After losing 10 yards, Moorehead passed 30 yards to Busse, a 5-yard penalty for offsides placed the ball on LaGrange's 1-yard line, from where Hodgson bucked over.

For LaGrange Payne, Smith, F. Whitten, Wright and J. Mann starred. Moorehead, Hamilton, Buisse and Leathers were the luminaries in the Athens lineup.

Among the large crowd of specta-tors that witnessed the game was Chick Shiver, Georgia's All-American

Lanier High Wins At Columbus, 26-0

COLUMBUS, Ga., Oct. 24.—Lanier High school Poets, of Macon, defeated Industrial High school eleven here Friday afternoon and took the locals for a ride to win by a score of 26-0. The Red Jackets outplayed the visitors in the first half, but the Macon team literally tore Industrial's line to pieces in the second period, gaining yardage almost at will. During the first half Lanier scored two touchdowns, both being made of breaks.

Burnett, Ferguson, Hurst and Rhodenhesier starred for the Macon team. Eubanks and Shi played good defensive football. Ferguson and Rhodenheiser gained most of the yardage for Lanier.

Whipple, on the Industrial team.

Whipple, on the Industrial team, gained a lot of yardage for Industrial and Johnson plunged through the Poets' line several times for large gains. Lamb and Farley played a good defensive game for the Red Jackets.

NEW YORK, Oct. 24.—(P)—The stock market selected the first anniversary of its 1929 explosion for another demonstration of its ability upon occasion to advance.

Aided by the optimism that emanated from the meeting of the steel producers and from a statement by a prominent figure in the automobile industry, the market rallied progressively, stopping only momentarily when a mail order house passed its dividend, and then accelerating its advance to a strong close. Grains ranged from 2 to 9 points on a turn over of 2,763,000 shares, 800,000 of which changed hands in the last hour.

All groups participated in the recovery.

covery. High grade domestic bonds steadied. Latin-American issues moved up brisk-ly on the Brazilian coup, which many observers felt would clarify the situ-ation in that republic. Grains eased slightly. Coffee futures broke a cent a pound but recovered. Cotton was again higher, rising 9 to 10 points. The steel men expressed the con-The steel men expressed the opin-ion that the bottom of the depression was at hand, although they saw little prospect of much improvement until the first of the year. Several said price stability was the industry's most pressing need and some found that progress was being made in that direction.

Thus the news of the day was largely constructive and the market chose to be cheerful. Steel shares went vigorously upward. The Van Sweringen rails, so soft yesterday, led their group and most of the Thursday losses were regained. Nickel Plate, Erie and Chesapeake & Ohio gained 3 points. Chesapeake & Orporation 5, Missouri Pacific and Alleghany Corporation 1 and Pere Marquette 8. Atchison and Pacific and Alleghany Corporation 1 and Pere Marquette 8. Atchison and New York Central, with 5-point advances, were also prominent. Union Pacific and Northern Pacific rose 3 and Baltimore & Ohio 2.

United States Steel pushed across 150 for a net gain of 4 points and American Telephone got above 200 again. International Telephone, in sympathy with the rallies in securi-

Montgomery Ward dropped to the new low of 20 1-4 on the omission of the dividend. Prior to the directors meeting Wall Street opinion had been divided as to whether the payment would be passed entirely, or cut, and the action brought out considerable stock. At the closing price of 20 5-8 the issue was off 3 1-4. Sears, Roebuck sagged for a time but recovered.

The day's losses in wheat averaged less than a cent. Selling was based on light exports and a bearish Argen-tine estimate. Corn was also off

fractionally.

Foreign exchanges firmed, with small advances in sterling, the French franc and the mark, and a sharp upturn in the Spanish peseta.

NEW YORK. Oct. 24.—While not as buoyant as Thursday and though part of the early Friday gain was dissipated; cotton showed continued steadiness and a gain of about 10 points compared with the previous close. The covering of several arge short lines Thursday had weakened the technical atructure somewhat and, as was to be expected, the drance of \$2.50 per baile from Thursday's lows attracted profit-taking will result in relating and some increase in hedge sales. It is too much to expect that the id-aselling and profit-taking will result in relating and profit-taking will result in relating advantage of to accumulate cotton for long pull possibilities.

Highlights OF

witnessed during Saturday's short session.

MONTGOMERY WARD

DIVIDEND.

There have been rumors for weeks that the Montgomery Ward dividend would be reduced so that the Street was somewhat surprised when the dividend was omitted entirely. This action might have affected the market adversely had it not been for the appearance just about that time of the stories relative to the steel extra dividend. Some color was given the possibility of an extra steel dividend by knowledge that one large brokerage house, which has the reputation for being close to certain important people in the steel corporation, has been a steady buyer of Steel common stock the last fortnight.

Sales of copper metal at 9 1-2 cents a pound were also offset by the more optimistic views announced on general business.

CHICAGO GRAIN AND PROVISIONS.

NEW YORK. Oct. 24.—(NANA)—Emphatic declarations in the Street that the United States Steel Corporation would declare an extra dividend of \$1 a share at its meeting on Tuesday, together with a statement by John J. Raskob that the automobile industry would begin a revival shortly which would serve to improve other lines of industry, had a stimulating influence on the general stock market Friday and stocks closed with substantial gains.

Toward the end of the market the Street had worked itself into such an optimistic frame of mind relative to the reported extra steel dividend, that some wagers were reported to have been made at odds of two to one that the payment would be made. There was a distinctly better feeling prevalent after the close of business and indications were that a further rally in the general list was likely to be witnessed during Saturday's short session.

BY DONALD C. BOLLES.

NEW YORK, Oct. 24 .- (P)-Latin American issues received new impetus today from the news that the revolt in Brazil had been successful. Apparently interpreting the overthrow of the government as a step towards stability in the South American re-public, traders were very active on the buying side.

Brazilian government, state and mu-nicipal bonds registered gains ranging as high as 11 points. Other Latin American issues participated in the advance to a more moderate degree.

Liquidation of domestic bonds dwindled and the best grade issues reflected a better tone although the continued decline in railroad bonds gave an irregular appearance to the group. Much of the improvement was attributed to the strong recovery of the stock market.

Prominent in the advance were the same Van Sweringen railroad and holding company bonds that broke sharply in the previous session. Con-vertible issues were the largest gainers. Alleghany Company bonds of 1944, 1949 and 1950 rebounded 6 to 1944, 1949 and 1950 rebounded 6 to 8 points. It became known that the company has on deposit as collateral securities whose value is more than 200 per cent of the value of the bonds outstanding while the indenture requires only 150 per cent. Chesapeake Corporation 5s advanced 2 points.

3 points.

Mortgage issues of the group were frregularly higher. Missouri Pacific 5s, F 77, rallied more than 2 points, and the 4s gfined 3-4. Chesapeake & Ohio bonds were firm. Nickel Plate and Erie bonds were mixed. Erie 5s of 1967 and Nickel Plate 4 1.2s A reacted to new 1930 lows. The Brazilian Ss advanced 5 points to 80, up 19 from its year's low reached shortly after the revolution broke out. Sao Paulo 7s moved up 11 1.2 for the largest gain of the day.

day.

Argentine, Chilean and Colombian issues were in demand. Peruvian governments reacted 1 point and Buenos Aires 6 1-2s sagged 5 to a new year's low. In the domestic list such issues as American and Foreign Power 5s, and International Telephone 4 1-2s, bends of companies with large internal transfer.

and International Telephone 4 1-2s, bonds of companies with large interests in South America advanced 3-4 and 1 3-8, respectively.

European bonds were comparatively dull and most of the activity was concentrated in a few government issues. Italian 7s and German municipal and industrial issues were higher.

United Founders 14c Sugar, Coffee, Rice.

	eugaa.
	NEW YORK, Oct. 24 Raw sugar was a
	little easier today with demand less active.
	Prices declined 1-32 on sales of about 25,000
	bags of Cuban for prompt shipments at 3.41
	Wuty paid.
	Conflicting reports from Cuba relative to
	the progress of the committee's plan for the
	atabilization of sugar caused an irregular
	movement in raw futures, with the general
	trend downward. At the outset the mar-
	het was unchanged to 3 points lower and
	following the call prices declined further.
	selling about 5 to 7 points below the pre-
	vious close. This decline was caused by
	the heavy selling of a prominent banking
	house with Cuban producing connections and
	ecattered commission house selling, promot-
	scattered commission nouse setting, promot-
	ed by reports that the Cuban house of rep-
	resentatives had failed to secure a quorum
	at yesterday's meeting and that a quorum
	was not likely until the middle of Novem-
	ber. This gave rise to some opposition to
	the committee's plan, but it was reported
	later that the failure of congress to act
	would impel President Machado to sign a
	decree confiscating the 1,500,000 tons of
	angar to be segregated and held over a
	period of five years. On this news there
	was active covering and early in the after-
	much the decline was all recovered. The
	moon the decline was all recovered. The
	rally failed to bold, bowever, as there
	appeared to be considerable uncertainty in
	the minds of the trade regarding the final
	entrome of the Cuban plan and prices react.
	ed again closing with net losses of 3 to 5
	maints. Approximate sales \$1,500 tons. No.
	W contracts closed & colete lower at 2 ht
	for December. Closing prices for No. 1: December 1.42; January 1.45; March 1.53; May 1.59; July 1.66; September 1.72.

	Another advance of 10 points was an- meanced by most of the refiners, effective
	medition by most of the refiners, effective
	at the close of business today, making the
	price 4.75, as against the previous level of
	4.65. As a result there was a better in-
	4.65. As a result there was a better in- quiry reported, but it would have been
í	larger were it not for the unsettled tone
	of the raw market.

DRY GOODS.

NEW YORK, Oct. 24.—Cotton gray goods markets were quiet today, with firm prices utiling and further restriction of contract selling due to assurances of continued cutallments and further raw cotton advances. Print cloths, broadcloths, and small quantities of sheetings and drills were sold. Fine goods markets were spotty with diversified inquiry. Burlap markets were again easy, Calcutta quotations for future shipment again receding slightly. There was some demand for spot overcoatings developed in wool goods markets. Spun rayon farns were in better demand. Corded cotton yarns were sought in limited poundages. Spot raw silks were active and advancing in Japan, and dull here. Rough weave silks were of interest in spring collections.

HOW TO RECOGNIZE A GOOD UTILITY BOND

No. 2 of a series of advertisements

STRENGTH IN MANY STRANDS

ANY investors regard a first mort-M gage as an absolute guarantee of safety . . . as though a first mortgage as such, because it is a first claim on earnings and assets, were also an absolute guarantee of the certainty of these earnings.

But it is obvious that a first claim on earnings is valuable only if the earnings are sufficient and will surely continue to be sufficient.

Rarely, if ever, is there a single business enterprise of usual size whose earnings or prospective earnings are absolutely certain. But practical certainty will be more surely attained if earnings are derived from many and diverse sources.

The bonds of a state or nation are considered of prime safety because they have the pledge not of one person or group of persons, but of all its citizens combined . . . they have the strength of a cable with many strands.

Debenture bonds of public utility enterprises drawing their earnings from widely diversi-

fied sources geographically, have now come to be recognized as superior to the mortgage bonds of many utilities serving a single locality, par-

61 Broadway

ticularly if that locality is one of the many known as a "one industry town."

In the Associated example, the earn ings available for the interest on one of the group issues of debenture bonds are derived in the

particular group from six geographically diversified situations, one of which alone covers the interest over one and one half times, and a combination of three of the others does likewise without considering the earnings of the other two. In the case of another group issue for which earnings are available from ten siruations, the required interest is more than earned by two of the companies in the group, without considering the earnings of the remaining companies.

Debenture bonds, therefore, which are secured by the earnings of a well diversified group of companies, have the combined strength of the group . . . and a certainty of earnings far greater than that of any individual company . . . constituting, from this standpoint, an investment superior even to the first mortgage bonds of many of the constituent companies.

We have applied a series of basic criteria, such as are used by scrutinizing

investors, banks and institutions, in the evaluation of the merits of debenture bonds of leading public utility companies. These are being set forth in this series of adver-

tisements. Persons desiring a copy of our Analysis consisting of a set of ten plate charts with the letter showing bow to weigh the worth of public utility bonds, may obtain them immediately by writing

BUYING BOOMS SHARES ON CURB

BY CLAUDE A. JAGGER,
NEW YORK, Oct. 24—(P)—A
burst of buying in the last hour of
trading sent active curb shares substantially higher today.

An upward trend was maintained
most of the day, but trading was
sluggish until midafternoon. Total
sales were only 506,700 shares.

Utilities again led the advance,
and much of the late buying appeared to be for short account. Indications of the ending of the Brazilian
revolution sent American & Foreign
Power warrants and Brazilian Traction up more than 2 points. Electric
Bond & Share, parent company of
American & Foreign, gained 3 points,
in active trading. American Gas &
Electric rose 4.

United Light "A" advanced 2
points. It was reported that control
of the company had been lodged with
Continental Shares, an investment
trust sponsored by the Eaton-Otis interests of Cleveland. These interests
have been dominant in the company
for some time.

Vacuum was a buoyant feature in
the oils, rising 3 points. Gulf also
advanced 3 points, and Imperial and
International rose about a point each.
Price changes in the standards were
largely narrow, but a steady tone predominated. In the untural gas shares,
Lone Star rose 3—10.5, and Missouri-Kansas Pipe Line gained a
point.

Industrials and specialties remained bergies although a few worked

souri-Kansas Pipe Line goint.
Industrials and specialties remained sluggish, although a few worked higher in light trading. Aluminum Co. recovered 6 points, Driver Harris and Mead Johnson, 2 points, Courtaulds and Gramophone, principal markets of which are in London, rose 1 and 2, respectively. Deere mounted a point. In the chain stores, Walgreen sagged 2 to a new low, Investment Trusts moved narrowly.

GREATEST PROSPERITY FORESEEN BY SCHWAB

NEW YORK. Oct. 24.—(AP)—
Charles M. Schwab's prediction that the steel industry would lead the march to the greatest prosperity America had ever seen gave an optimistic keynote to the semi-annual meeting of the American Iron and Steel Institute here today.

Prominent manufacturers reported that the worst of the depression in their business had apparently been reached. Many saw hopeful signs, although some did not expect much improvement until the first of the year.

Dangers of competitive price-cutting were stressed both by Mr. Schwab, as resident of the institute, and y James A. Farrell, president of United States Steel Corporation. Mr. Farrell expressed a conviction that the industry could be revived in 60 days through co-operation.

Mr. Schwab, impatient with what he called "short term of pessimism." pointed out that ingot production in 1930 would be about 40,000,000 tons, or within 5 per cent of the average for the past ten years. He urged the producers to "forget 1929," and look at the forces which he said would make possible another record year, notably the expanding uses of the products of an industry that is "the basis for this modern age."

Eugene G. Grace, president of Bethlehem. did not expect "much in the way of improvement until after the turn of the year." He commented on the greater stability of progress in comparison with a month or six weeks ago. Bethlehem's operations are 52 per cent of capacity.

Tom Girdler, president of Republic forced "a great many signs that

Tom Girdler, president of Repub-lic, found "a great many signs that things are getting better in many i-rections." L. G. G-hegan, vice presi-dent of Gulf States, believed the in-dustry had reached its low ebb or was ose to it.

GREEK ORTHODOX CLERGYMAN HERE

The Rt. Rev. Metropolitan Vassilios, an outstanding figure among high officials of the Greek Orthodox church, arrived in Atlanta Friday afternoon to lead the Mass of Eucharistie Sunday at the church here, lo-

tie Sunday at the church here, lo-cated at the corner of Pryor and Rich-ardson streets.

The Rev. Vassilios has been in America but a few years, having come here from Europe, where he was air-rorly connected with the Greek church, the Patriarch of Constantino-ple. He has established many churches of the Greek faith in America.

Bobby Coon Be Jomes

CURIOUS.

By Thornton W. Burgess.

Sometimes 'tis just as well for you To know just what your neighbors do. — Jimmy Skunk.

Bobby Coon found out a long time ago that a great deal is to be learned by watching his neighbors. It isn't do, No, sir, watching one's neighbors is not supposed to be a very polite thing to do. No, sir, watching one's neighbors is not supposed to be a polite thing is not supposed to be a polite thing between Meadows. Life very often defined on the word of the Green Forest and the Green Meadows. Life very often defined on knowing what one's neighbors may be doing. So, some of these bors may be doing. The hunters with terribble guns had not found him. He had had polently of corn while it was in the milk and, altogether, he was in the fatter lam, said he, "the more comfortable I'll be and the better off in the spring. I can't get too fat."

This didn't worry Bobby. He had a very good opinion of himself. No doy had found him so far this fall and he didn't intend that any dog should find in intend that any dog should find in intend that any dog should find him. "Peter," said he, "you don't know now to take life easy. What's the good of running around and worrying all winter as to where you are going to get enough to eat? Of course, I don't know anything about it, but my guess is that you go hungry a good many times in the winter. This is the fat season. Why don't you get your."

to say nothing of a special performance for children this morning at 8:45—
it is altogether probable that the number of the people who see "Amos" in their falking picture debut at the Capitol theater, will run high into six-figure numerals.

The picture, "Check and Double Check," opened its run Friday—the world premiere showing, by the way. It proved to be nothing more nor less than the tremendously popular radio stars transferred to the talking screen with the Fresh Air Taxicab Company, the Kingfish and his "propolitions," and all.

The audiences which kept the theater filled either to capacity or close to it all Friday, demonstrated approval with ever recurring gales of laughter. Audible comment and delightful chuckles signaled every appearance of the famous blackface pair on the screen and every familiar expression was greeted with laughing recognition.

The story is a typical "Amos 'n' Andy' affair. It involves a lost deed to some New York property upon which the love affair between the son of the former Georgia master of "Amos 'n' Andy" and a lovable New York girl depends. Of course, it is Anos who takes the credit when the boy from Georgia tries to express his thanks.

The scene in the lodge room of the "Mystic Knights of the Sea" competes with the scenes involving the Fresh Air Taxicab itself, for humor. but the ride through crowded New York, with Amos at the wheel, is far and away the funniest thing in the picture.

The waist blouses above the belt, and closes at the left side of the front. Narrow collar portions trim the round neck outline. The sleeve may be finished in wrist—or shorter length with a neat upturned cuff.

The pattern is cut in 4 sizes: 6, 8, 10 and 12 years. To make the dress in a 12-year size with long sleeves will require 2 3-4 yards of 35-inch material. With short sleeves—it will require 2 1-2 yards. The collar and cuffs of contrasting material require 3-8 yard 35 inches wide, cut crosswise.

FOR7TH DAY ADVENTISTS OMAHA, Neb., Oct. 24.—(R)—The president's council of the Seventh Day Adventist church today created a committee of seven to draw up a more rigid code governing the conduct of its ministers.

The committee was instructed to frame a new code to be presented for official action at the opening of the international fall conference of the church here next week.

Among the influences responsible for the breakdows of respect for the ministry, the council said, were a tendency to use "joke books" in the pul-

were the hours each day that Tarzan spent in training and educating the little spotted ballall playfulness now, but who one day would grow into a great savage beast of prey. When meat was added to the Golden Lion's diet the ape-man fed it in a way that brought grim smiles to his Waziri warrior. For Tarzan had fashioned a dummy in the semblance of a man. The lion's meat was always fastened at the throat of this dummy. At a word from the ape-man the lion would crouch. Tarzan would then point at the dummy and whisper the single word "kill."

However hungry the lion would be, he learned never to move toward the meat until that single word was uttered by his master. Then with a rush and a savage growl he drove straight for the flesh. When he was little Jad-bal-ja had difficulty at first in clambering up the dummy. As he grew older and larger a single leap would carry him to his goal. Down would go the dummy upon its back with the lion tearing at its throat. Months it took to teach him to find an indicated object and bring it in the same of it unharmed to Tarzan at the single word "fetch. Lady Greystoke was often an interested onlooker at the education of the Golden Lion. She had many misgivings at the wisdom of the ape-man's pro-

grown?" she asked one day. "He bids fair to become a mighty Numa. Now he will be utterly never feed upon man or woman, either," he added teasingly. "That I know." Then came the time when Jad-bal-ja was taken into the jungle to test the ape-man's theories.

bal-ja following the heels of Tarzan's horse, There were Jane, Korak, Tarzan and the Golden Lion. Four jungle hunters. And of the four Jad-bal-ja, the lion, was the least accomplished. At length they dismounted near a swale in which antelope were usually to be found. Warily they crawled through the brush. Scarce a leaf rustled to their passage. Below they saw a grazing herd. Nearest them was an old buck. Tarzan pointed him out in some mysterious manner to Jad-bal-ja. "Fetch him," the ape-man whispered.

HOWELL, HEYMAN & BOLDING Lawyers

The average person, having achieved a certain degree of prominence in his chosen field, is quite content to stick to the more or less prosaic duties stick to the more or less prosanc duties which his particular work entails and let the call of adventure in the air go pretty much unanswered. Not so Harry G. Ballance, who, as southern district manager of Paramount Distributors Corporation, is a "big shot" in the southern movie field and one of the best known motion picture men in the country.

Ballance, who has a lot of territory o cover for the Paramount corpora-on-10 states, at least, extending as ar west as Texas and as far north as Kentucky—months ago became thoroughly "fed up" on slow and grimy train travel. And so he became his customary business calls in the south and to attend business conferences and conventions in other parts of the country—as far away, even, as Los Angeles.

Ballance finally reached the con-clusion, after riding airplanes enough to become a rabid enthusiast, that he could save money and rid himsel of the nuisance of having to fly by a schedule fixed by semectary also be schedule fixed by someone else, by learning how to fly himself and, evenlearning now to fly himself and, even-tually, by buying his own airplane and becoming his own "boss" in the air. His learning to handle an air-plane in the air—he soloed Friday in a plane of the Blevins Aircraft Cor-poration, where he had been receiving instruction for several months—is a testimonial to his perseverance and his refusal to quit.

Starting at an age when most men are settling down to the routine of humdrum affairs, Ballance found himself no adept at the business of flying. He was "set in his ways," in a manner of speaking, and he had a hard time getting himself in the proper mental attitude. But he stuck to it, through fair weather and foul, and Friday he crossed the first barrier. He is planning to build up his flying time, not necessarily to win a department of commerce license, as he has no idea of ever flying for "hire or reward," but to give himself the confidence that comes only after many hours in the air, and then to buy his own ship. Beeler Blevins said Friday that Ballance did "fine" on his solo attempt and that he had no doubt but that he would make a splendid wild wild. doubt but that he would make a splen-

Several visitors have been record-Several visitors have been recorded on the airport register during the last few days. H. Shievers, piloting a Ryan brougham, powered with a J-6 whirlwind of 300 horespower, dropped by on a flight from Shreveport, La., to Cleveland, Ohio, with two officials of the Fleetwing Oil Company, to which concern the plane belonged. E. A. Hughes, of New York, came through in his own Lycoming-powered Stinson Junior, with Captain Siaman as pilot. They were on their way to Florida, H. E. Jackon their way to Florida. H. E. Jack-ler, flying a New Standard trainer, equipped with a J-6 "five" of 165 horsepower, landed just before dark Friday afternoon from Paterson, N. J.
